

Newsletter 06/ 2013 –exclusive offer

We are offering subject to prior sale:

## 1 Cpl. PICANOL AIR-JET WEAVING PLANT

incl. warp sizing, Kaeser compressor, auxiliary equipment & spare parts

Location Schengen Europe

Status: excellent, well maintained working condition

Package Price, CFR major seaport

upon request

COMPRI SING OUT OF:

### WARP PREPARATION

Item 4845-03

1 KARL MAYER SIZING MACHINE, type Rotal, year 1996/98

roller and cyl. width 2000 mm, working width 1800 mm

max. working width at headstock 2100 mm, max. speed 120 m/min., consisting of:

- Beam creel, type RN-12-1800/1000 for 12 beams  
1800 mm between the flanges, max. 1000 mm flange diam., pneum. Brakes, individually controlled

- 1 Size trough, type 1800  
2 x 2 squeezing rollers, 2 diving roller,  
automatic temperature regulation  
automatic dosing of of sizing material

- Cylinder dyer, 11 drying cylinder, modernized in 1996  
- Warp tension regulation device, type ULN-1800  
- partitioning field  
- waxing device

- Beaming Machine / Headstock, type ID 2700/1000  
Cylinder width 2700 mm, max. working width: 2100 mm  
Max. Flange diam. 1016 mm

- computer system: Dinax 1

Unwinding tension on the stand on warping rollers, regulation of warp and traction tension, regulation of temperature, funds of delay in tensive zones, regulation of squeezing pressure, residual moisture, machine speed, metering of wrapped quantity  
possibility of placing of 60 setting datas in the memory..

### AIR-JET WEAVING

Item 4845-09

21 PICANOL AIRJET WEAVING LOOMS, type PAT-A 190, year 1990,

Working width 1900 mm, 2 Colors

with Staubli electronic Dobby, Type 2560 - 12 Levers installed

each loom equipped with :

8 - 10 heald frames  
2 warp beams - 1000 mm flange diameter  
5000 heddles & droppers  
2 Weft with creel and weft stand  
with Formia Batcher

incl. many spare parts (electronic and mech.), all accessories and devices (for example pressure testing equipment), techn. documentation related to the machines and as available

Item 4845-11

1 KAESER SPIRAL COMPRESSOR, year 2002

1 x Type FS 440

capacity 2385 m<sup>3</sup>/hour, pressure 6 bar, el.motor 250 kW equipped with:

Cyclone Condensation Damper, Type ZK 08, Autom. Steam Trap, Type Eco-Drain 14

Micro filter Combination FFG-708D, Splitter of Condensation, Aquamat 6 Proclima Suction Tube

1 Kaeser air dryer, year 2000/2,

Type TI 751 KE, Capacity 75 m<sup>3</sup>/min , el. motor 9,4 kW

Item 4845-12

2 Classic inspection tables, make ELITEX

## AUXILIARY EQUIPMENT

Item#4845-12

1 WARP TYING MACHINES, USTER (CH) - type UMM, with knotting table

Item#4478

1 REED DRAWING-IN MACHINE, make USTER,  
complete with stand, year 1973

Item#7488

1 SPOOLER / WINDING MACHINE

4 positions, for Picanol small leno bobbins

## YARN TESTING LABORATORY

Item#8322

COMPLETE USTER TESTER I, with:

Spectrograph

Imperfection Indicator

Control Unit

Monitor, Keyboard, Printer

Big lot of Spare Parts

## MATERIAL HANDLING EQUIPMENT

Item# 9438, 9439,

2 WARP BEAM TROLLIES, year 1996,

hydraulic, for empty beams, capacity 300 kg

Item# 8140

1 WARP BEAM LIFTING TRUCK, make Genkinger, year 1985/86

type KH 58/15, hydraulic, capacity 1.500 kg

## FURTHER MACHINERY FOR THE WARP PREPARATION

Item 4845-16

1 WARPING MACHINE TOTEX, Year 1986, with creel

Item 4845-17

1 DOUBLING MACHINE

Year 1988, Type ZR-16/48

Item 4845-18

1 AUTOCONER, make Schlafhorst year 1989 modern. in 2005

Type: 138-GKU-X-P, 1 x 50 spindles, splicer,  
with electronic clearers Zellweger Uster D4- MK15

Our usual terms and conditions apply to captioned offer. This offer is subject to prior sale.

Best Regards / mit freundlichen Grüßen
